| <p>Ce meuble est à usage domestique.<br/> A monter soi-même.<br/> Vérifier la présence et l'état de la quincaillerie et des pièces avant de débiter le montage.<br/> Ne pas monter ou utiliser le mobilier si certains éléments sont cassés, endommagés ou manquants, et n'utiliser que des pièces approuvées par le fabricant.<br/> Utiliser uniquement l'outillage fourni ou préconisé.<br/> Serrer correctement les éléments de fixation avec l'outillage fourni ou préconisé.<br/> Un mauvais montage, calage ou manutention peut entraîner une fragilisation des assemblages et/ou des pièces.<br/> Tenir éloigné les jeunes enfants lors de l'assemblage. Présence de petites pièces susceptibles d'être ingérées.<br/> Il convient que tous les dispositifs d'assemblage soient toujours convenablement serrés et régulièrement vérifiés, et resserrés, si nécessaire.<br/> Ne pas déplacer un mobilier chargé.<br/> Les meubles contenant des panneaux à base de bois peuvent émettre des substances polluantes dans l'air intérieur.<br/> Il est donc recommandé, après l'installation du meuble, d'aérer fréquemment la pièce pendant au moins quatre semaines.</p>               |                                |
| EN                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | <h2>SAFETY INFORMATION</h2>    |
| <p><b>IMPORTANT ! | <p>This furniture is for domestic use.<br/> Self-assembly required.<br/> Check that all of the hardware and parts are present and in good condition before starting assembly.<br/> Do not assemble or use the furniture if any of the parts are broken, damaged or missing, and only use parts approved by the manufacturer.<br/> Only use tools that are supplied or recommended.<br/> Firmly tighten the fasteners using the supplied or recommended tools.<br/> Improper assembly, cribbing or handling can lead to assemblies and/or parts becoming weakened.<br/> Keep young children away during assembly. The product contains small parts that could be ingested.<br/> All joints should always be properly tightened and regularly checked, and retightened, if necessary.<br/> Do not move furniture that is loaded.<br/> Furniture containing wood-based panels (particleboard, fibreboard, plywood, etc.) can emit pollutants into the indoor air.<br/> You are therefore advised, after the furniture has been installed in its location, to ventilate the room frequently for at least four weeks in order to reduce exposure to the pollutants emitted by the furniture.</p> |                                |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                |

| <p>Dieses Möbelstück ist für den Hausgebrauch bestimmt.</p> <p>Zur Selbstmontage.</p> <p>Vor der Montage überprüfen, ob alle Befestigungselemente und Teile vorhanden und in einwandfreiem Zustand sind. Die Möbel nicht montieren oder benutzen, wenn bestimmte Elemente defekt, beschädigt sind oder fehlen. Nur vom Hersteller zugelassene Teile verwenden.</p> <p>Nur die mitgelieferten oder empfohlenen Werkzeuge verwenden.</p> <p>Die Befestigungselemente mit dem mitgelieferten oder empfohlenen Werkzeug gut festziehen.</p> <p>Durch unsachgemäße Montage, Lagerung oder Handhabung können die Verbindungsstücke und/oder Teile brüchig werden. Kleine Kinder sind während der Montage fernzuhalten. Es sind kleine Teile vorhanden, die verschluckt werden können. Alle Verbindungselemente sollten immer richtig angezogen und regelmäßig überprüft und bei Bedarf nachgezogen werden. Ein Möbelstück, das gefüllt ist, nicht umstellen.</p> <p>Möbel mit Holzplatten (Spanplatten, Faserplatten, Sperrholz...) können Schadstoffe in die Raumluft abgeben.. Es wird daher empfohlen, nach dem Aufstellen des Möbelstücks den betreffenden Raum mindestens vier Wochen lang häufig zu lüften, um seine Belastung durch Schadstoffe von dem Möbelstück zu reduzieren.</p>                                                                                                                                                         |                                |
| IT                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | <b>ISTRUZIONI DI SICUREZZA</b> |

| <p>Questo mobile è destinato all'uso domestico.</p> <p>Da assemblare.</p> <p>Verificare la presenza e lo stato dei dispositivi di fissaggio e dei componenti prima di iniziare l'assemblaggio.</p> <p>Non assemblare o usare il mobile se alcuni componenti sono danneggiati o mancanti e utilizzare esclusivamente parti approvate dal costruttore.</p> <p>Utilizzare esclusivamente gli utensili forniti o raccomandati.</p> <p>Serrare correttamente gli elementi di fissaggio con gli utensili forniti o raccomandati.</p> <p>Effettuare correttamente l'assemblaggio, la regolazione o la manutenzione per evitare di danneggiare le strutture e/o i componenti.</p> <p>Tenere lontani i bambini piccoli durante l'assemblaggio. Presenza di piccoli pezzi che possono essere ingeriti. Si raccomanda di verificare regolarmente il corretto serraggio dei dispositivi di assemblaggio; serrarli se necessario. Non spostare un mobile carico.</p> <p>I mobili contenenti pannelli in legno e derivati (come particolato, fibre e compensato) possono emettere sostanze inquinanti nell'aria interna. Pertanto, si raccomanda di arieggiare frequentemente il locale in cui il mobile è installato per almeno quattro settimane dall'installazione per ridurre l'esposizione agli agenti inquinanti emessi dal mobile. Prestare attenzione al rischio di lesioni alle dita durante il collocamento del tavolo in posizione abbassata.</p> |                                |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                   |

| <p>Este mueble es para uso doméstico. Se requiere montaje.<br/>         Compruebe que dispone de toda la tornillería y de todas las piezas antes de comenzar el montaje.<br/>         No monte ni utilice el mueble si hubiera piezas rotas o dañadas o si faltaran piezas,<br/>         y emplee únicamente piezas aprobadas por el fabricante.<br/>         Utilice únicamente las herramientas suministradas o recomendadas.<br/>         Apriete firmemente las fijaciones empleando las herramientas suministradas o recomendadas.<br/>         El montaje, el apuntalamiento o la manipulación incorrectos podrían conducir al debilitamiento del ensamblado o de las piezas.<br/>         Mantenga a los niños alejados durante el montaje. El producto contiene piezas pequeñas que podrían ingerirse.<br/>         Todas las uniones deberán apretarse adecuadamente y verificarse periódicamente, volviéndolas a apretar si fuera necesario.<br/>         No desplace un mueble que esté cargado.<br/> <b>IMPORTANTE:</b> Para evitar que el mueble pueda volcarse accidentalmente, deberá fijarse a la pared.<br/>         Mueble que contiene paneles con base de madera (tableros de partículas, fibras, contrachapado)<br/>         que pueden emitir contaminantes al aire en interiores. Consiguientemente, se le aconseja que,<br/>         una vez instalado el mueble en su ubicación, ventile la sala frecuentemente durante al menos cuatro<br/>         semanas para reducir la exposición a los contaminantes emitidos por el mismo.</p>                                                                                                                                                                                                                                         |                                   |
| NL                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | <h2>VEILIGHEIDSINFORMATIE</h2>    |

**IMPORTANT :** Pour éviter le basculement accidentel du meuble, la fixation du meuble au mur est obligatoire.

**IMPORTANT:** To prevent the furniture accidentally tipping over, it must be affixed to the wall.

**WICHTIG:** Das Möbelstück muss an der Wand befestigt werden, um ein versehentliches Umkippen zu vermeiden.

**IMPORTANTE!** Per evitare lo spostamento accidentale del mobile è obbligatorio fissarlo alla parete.

**IMPORTANTE:** Para evitar que el mueble pueda volcarse accidentalmente, deberá fijarse a la pared.

**BELANGRIJK:** Om te voorkomen dat het meubilair per ongeluk omkeert, moet het aan de muur worden bevestigd.

La visserie nécessaire pour la jonction mur/meuble, dépendante de la nature du mur, n'est pas fournie.

Adapter la quincaillerie à votre support. En cas de doute, consulter un spécialiste.

The screws required for the wall/furniture junction, which depend on the type of wall, are not supplied.

Ensure that the hardware is suited to your substrate. If in doubt, consult a specialist.

Die notwendigen Schrauben für die Befestigung des Möbelstücks an der Wand, je nach Art der Wand, werden nicht mitgeliefert.

Passen Sie das Befestigungsmaterial an die Art Ihrer Wand an. Ziehen Sie im Zweifelsfall eine Fachkraft zurate.

I dispositivi di fissaggio necessari per il fissaggio del mobile alla parete variano in base al materiale e non sono forniti.

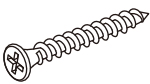

Usare i dispositivi adatti al supporto. In caso di dubbio, consultare uno specialista.

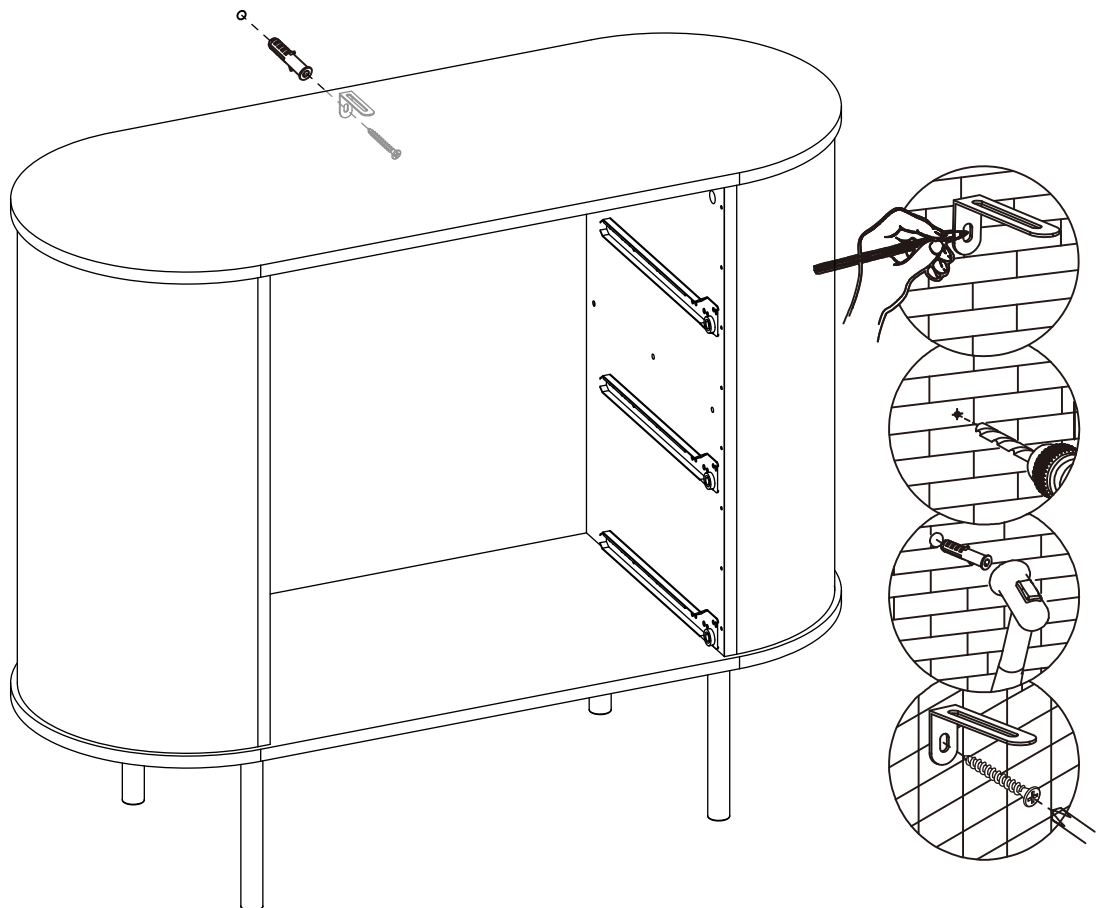

Los tornillos requeridos para la unión de pared/mueble, que dependen del tipo de pared, no se suministran.

Asegúrese de que la tornillería sea adecuada para su sustrato. En caso de duda, consulte a un especialista.

De schroeven die nodig zijn voor de muur/meubelverbinding, afhankelijk van het type muur, worden niet geleverd.

Zorg ervoor dat de hardware geschikt is voor uw substraat. Indien u twijfelt, raadpleeg dan een specialist.
